

Ed Temple's update to Action Item #1 of 04-Sep-07 NOvA WGM

Joe Ingraffia leads a team which consists of Ronette Stec from Argonne, Mary-Faith Healey (BNL), Sergio Martinez (DOE-ASO), and Tom Harrison (AMSO).

These reviews are done by the PERT (Procurement Evaluation and Reengineering Team), under guidance from the Procurement Executives (Ed Simpson and David Boyd) at DOE HQ, Ed Simpson replaced Richard Hopf as Procurement Executive for DOE, and David Boyd replaced Bob Braden as Procurement Executive for NNSA

Since the last PERT review at Fermi was in FY05, Fermi is on the list for FY08 - a letter from form the PE should be going out to the sites on the tentative schedule in the next month or so.

Joe is the co-chair of the PERT sub team, which staffs and schedules the reviews
